# EFORMS MADE EASY:
A faster path to a standard forms governance solution

EmprintWeb is a cloud-based healthcare document management system that enables you to streamline paperwork, reduce costs and create efficiencies across your organization. This powerful system digitally governs care documents and eForms, so they can be accessed when and where needed.

With EmprintWeb, one of the most costly and complex areas of healthcare administration can be brought under control, enabling you to create solid bottom-line savings and measurable operational efficiencies.

1. EASY TO LEARN

EmprintWeb is a user-friendly system with an intuitive user interface, making it easy to train and transition your team. With minimal training, your team can:

- Create new eForms, based on your criteria
- Let Emprint create new forms for you
- Easily route new form designs for approval
- Convert existing forms to eForms
- Add barcodes to link and track eForms to patient records

THE BENEFITS ARE EASY TO SEE

EmprintWeb enables you to leverage cloud-based technologies to reduce inefficiencies, redundancies and inconsistencies. This powerful system:

- Enables document governance that spans all locations
- Creates consistency and standardization from patient to patient
- Integrates electronic and printed forms
- Facilitates document printing and sharing across multiple locations
- Ensures access to critical clinical forms, even during downtime or power outages

2. EASY TO IMPLEMENT

EmprintWeb quickly integrates with your EHR/EMR to create rapid improvements and efficiencies. We can collaborate directly with your IT team to establish and implement:

- User authentication
- User permission management
- HL7 feed for patient information
- Mobile app
- Remote access
- Downtime and offline access

60%

Overall, organizations have been able to reduce the cost of printed materials by 60% by using the Emprint eForms program.

3. EASY TO USE

Once in place, EmprintWeb makes it easy for authorized users to search or sort individual forms by category, or select packets of forms often used together. Users can print, download or share forms, plus print or view documents. Forms can be customized to allow:

- Patient information to be linked
- Location-specific requirements
- Electronic or manual completion

RESULTS COME EASY WITH EMPRINT

The results for one Top Ten hospital group:

$11.4 M+
SAVINGS GENERATED

175 Facilities
WITH STANDARDIZED FORMS

Reduced or eliminated
THE NEED TO PURCHASE FORMS

4. EASY TO MONITOR

EmprintWeb gives you a whole new level of transparency into use and performance. Monthly reports can be easily generated to give you a detailed and precise view of:

- Use, quality, cost and savings
- Performance by enterprise or location
- All data in print or digital form

EmprintWeb is easy to learn, implement, use and monitor — and its effectiveness has been proven in hospitals, health systems and clinics across the U.S. For more information, visit us at emprintsoft.com or call 1-833-719-6599.
